About the Course

Our Jolly Phonics course has transformed the teaching of reading and writing for children in the first years of primary school. Extensive research has shown that a synthetic phonics approach is the key

to unlocking independent reading for all.

Many schools throughout the world have made Jolly Phonics the preeminent programme of choice for teaching children to read. Why? Simply because it is so effective and efficient in equipping young children with the skills and techniques required to read independently and confidently in the shortest possible time-frame.

Our online Jolly Phonics Course delivers key insights, along with equipping teachers with the full suite of knowledge, skills, and understandings that are essential in order to deliver the programme as conceived and designed by the authors, resulting in maximum progression in reading and writing for the children.

A trained teacher, equipped with the key materials and skill sets is just so much more effective than those with a cursory, intuitive understanding. We aim for you to be fully versed in all key aspects of the programme, returning to the classroom to reap a rich dividend in reading progress.

Jolly Phonics, embodying best synthetic phonics principles, is the MAGIC KEY to unlocking independent reading for your children. So, whether you are currently using Jolly Phonics, intending to introduce it next year or simply needing to refresh programme understanding and skill sets, then this surely is the course for you.

Highlights include:

- The history of phonics teaching, different teaching methods across the ages, culminating in the emergence of synthetic phonics as embodied in & exemplified by Jolly Phonics
- The five basic skills that constitute and flow through the programme
- Blending techniques – as central to working out unknown words, key to independent reading
- Decodable readers across the classes
- Strategies for dealing with the non-conforming ‘Tricky Words’
- Activities for supporting ‘struggling readers’
- Timetables and suggested schedules for the programme in infant classes
- Consideration of resources, materials & assessment
- Frequently asked questions, and teachers have many of them!

……..and so much more.

Finally, teachers participating in the Jolly Phonics Course in previous years have really enjoyed the discussions within each module forum, where questions are answered, techniques get teased out and where experience and great practice is freely shared.

“This training is very thorough... those who can effectively learn in this way should be well prepared by it to teach synthetic phonics using the Jolly Phonics programme.” UK, Department for Education, Standards Division.

Participants are encouraged to interact with one another using the communication tools (forum, chat, e-mail) provided by the CPD College learning system. Active facilitation throughout the course provides expert interaction, guidance and feedback for all participants. Assignments and questions which call for critical reflection, self-analysis and a reasoned response punctuate this highly interactive web based course.

Note: Each participant has 90 days access to the course from their date of enrolment.

On completion of this course each participant can download their CPD record and Certificate of completion. The Certificate of completion demonstrates your achievement in completing this professional development course.

Learning outcomes

Through engagement with the course content and through the sharing of successful teaching approaches within the discussion forum, participants will gain the knowledge and skills required to effectively teach the Jolly Phonics programme.

Modules

01 - The development of Jolly Phonics

02 - Jolly Phonics and the 5 basic skills

03 - Teaching with Jolly Phonics

04 - Improving reading and writing skills

05 - Jolly Phonics research and materials

"WOW! I came looking for ideas to improve how I teach reading with my children. What an incredible, awe-inspiring experience. Totally transformative. I now teach the five core skills relentlessly, and the children are progressing at rates I would've previously thought impossible. I got it all in this course -

pedagogy, principles, practices, approaches & techniques, advice and plenty of ideas. The course chat forums were wonderful, too; it was great to connect with fellow teachers on a like-minded mission! It's so rewarding to see my class actually reading. Well done CPD College and Jolly Learning." Emer, 2025
